SAP Consultant (S/4HANA Specialization)

Description

Cath-EI Tek Solution is seeking a skilled and dynamic **SAP Consultant** with expertise in SAP S/4HANA implementation and integration. Join our innovative team and contribute to digital transformation projects across industries.

Responsibilities

- Lead SAP S/4HANA implementation projects from planning to go-live.
- Customize SAP modules to meet client requirements and business processes.
- Provide technical and functional support to ensure seamless operations.
- Collaborate with cross-functional teams for system integration and optimization.
- Conduct training sessions for end-users and create documentation.
- Resolve system issues and provide post-implementation support.

Qualifications

- Bachelor's degree in Computer Science, Information Systems, or a related field.
- Minimum of 3 years of experience in SAP S/4HANA implementation.
- Strong knowledge of SAP modules (FI, MM, SD, PP).
- Hands-on experience with SAP Fiori and ABAP debugging is a plus.
- Excellent analytical, problem-solving, and communication skills.
- Ability to work in a fast-paced, client-focused environment.

Job Benefits

- Flexible work hours.
- Health insurance coverage.
- Opportunities for professional development and certification sponsorship.
- Collaborative and inclusive work culture.
